## FEATURES OF RACE TIMING SOFTWARE

The IOS-RACE TIMING software is very powerful and not only runs the timing system

- ✓ Provides race reports
- ✓ Provides registration, and a complete database.
- ✓ Real-time updates and reports that can be generated at any time during the race.
- ✓ Real-time results on large screen displays so that race participants
- ✓ Their friends and family can see their results as they cross the finish line!

**We Partner with**

**WORLD 's LARGEST**

**RFID Solution Provider**

**ALIEN Technology , USA.**

With our timing chips, you can place them on a race bib, shoe, backpack, swimsuit, bike, motorcycle, ankle strap, or virtually any other surface.

There are no messy mats, wires, or plastic ramps to get in the way...and you don't have to worry about weather, uneven ground, or athletes stumbling over the timing antennas.
